

# NORDSTROM

With more than sixteen years of professional cooking experience, Nordstrom's regional chef, Jonathan Rohland, oversees 21 restaurant operations and partnership of 25 Specialty Coffee Bars with Nordstrom on the eastern coast.

"We choose to use Kreider Farms dairy in our restaurants and specialty coffee bars because their products are free of growth hormones and their company's dedication to be good stewards of the environment."

Nordstrom cares about the products they serve to their customers, and their association with Kreider Farms is a great example of two companies working together to bring local and sustainable products to a larger audience.

*"Nordstrom believes that we have an obligation to our customers to limit the impact on the environment, as well as to offer the freshest and highest quality ingredients in our food and beverages."*
